TESTIMONIALS

“

Vikas has wonderful insights into leadership and practical applications you can use within your organization. He is a good man, involve him!

Alistair Schofield
Director My Brain
International Limited

“

You should definitely, get together with Vikas and bring him to speak at your event and to inspire your people, to have that sense of learning and curiosity in your organization

James Taylor
Keynote Speaker on
Creativity & AI

“

...I think, this presentation was terrific, I really enjoyed the part about disruptive innovation, I think there is a lot leaders can learn from

John Polutchko
Director, Dell Corporation

“

...Vikas Jain conducted the workshop masterfully, engaging the audience throughout. Through his engaging style he was able to reach out to the participants. Highly recommended.

Manish Gupta
Program Manager, McAfee
(Intel) India

..sincere thanks for your motivational speech during our “Yamaha Dealers Meet 2017”....Your speech, I am sure is going to help people to understand their inner motivations & give 100% to whatever they do.

Vishnu Agarwal
MD, MAW Enterprises Pvt.
Ltd. (Yamaha Distributor in
Nepal)

“

The best session that we ever had till date. Interaction with the audience was amazing and various activities as a part of session engaged even the conservative employees in our team. Vikas Jain is blessed with ability to engage the people throughout the session. He is one of the best speakers that I have ever seen.

Nikhil Arora
Director, Virgo Group

“

“Vikas Ji, Great Session, I think I can say on behalf of people sitting here, that all of us has really enjoyed the session. It has been a big motivator not just for team but personally my self also. I have become more charged up, earlier we were targeting 30-40%, now we can target 100% growth. Different kind of motivational that Vikas Ji has given us. Also what I really realized today was that I have also kind of stopped looking beyond obvious. And from business strategy discussion conducted by Vikas Jain, I could find out a high volume business opportunity.

Adish Jain
Managing Director, FNS International Pvt. Ltd.

I was at a crossroads in my career when I approached Mr. Vikas Jain. I usually never write online reviews but felt the need to based on how professional and impressed I felt with the service. He brought a ton of professional experience and supported me in identifying and transitioning on a more productive career path. He provided me with several excellent resources to help identify my career path while also working through mindfulness exercises to reduce anxiety. He was very good at helping me focus on what I wanted to do and the steps I needed to take to get there. He held me accountable, which was something I really needed and valued. Further, he was very accommodating and worked around my schedule. I would recommend him to anyone who is looking to have a more impactful career and isn't quite sure where to start. The skills and techniques he provides you with can be used all throughout your professional career.

Vikas is the epitome of what is considered as perfect mentor-ship and guidance. What makes Vikas an exceptional teacher is that he understands the fact that being a teacher requires him to fully develop his student's personality. He is more than a teacher as he solves his student's problem like a friend and guides them like a true mentor. Any combination of English alphabets can't fully describe my respect and appreciation towards Vikas. The fact that he likes to bring out the best in everyone with apt motivation and push explains why I personally respect him. He is a great human being as well as a great teacher working for a genuine cause and any student who finds himself under his guidance should consider himself very lucky.
